

# THE LEGACY QUESTIONNAIRE™

The first step  
to providing  
clarity where life  
intersects wealth

Most plans begin and end with numbers. The Legacy Wealth Optimization System employs a unique values-based approach that begins with what is most important to you. As you answer the questions, you will explore your beliefs, feelings and values about money and its relation to you, your heirs and society at large.

Completing the questionnaire is your first step to providing clarity where life intersects wealth. The foundation becomes the roadmap and will serve as a guide to ensure that all planning decisions are consistent with your values and objectives.

Please note that instructions vary from question to question. Some require you to check the one response that most closely reflects your view. Some ask you to rank the order of importance of your answers. Some ask you to check all the responses that apply. A few require you to fill in the blank. Every question has room for additional comments.

Try to complete the questionnaire at a time when you will not be distracted. Take time to consider your answers carefully, but don't spend too much time on any one question. Be sure to read all choices for each question, as some have very subtle differences. If a question doesn't apply to you, skip it and go on to the next.

Don't become frustrated if you are unable to answer a question or if you are not fully satisfied with your answers. Conflicts and insufficient information are expected outcomes of this process. The idea is to identify issues and concerns so that you can take the necessary steps to address them.

Keep in mind that the more detail and clarification you can provide, the better the roadmap will serve as a guide. If you are comfortable doing so, use the space for comments to expand on your thoughts or provide additional information that will assist your advisors in developing your plan. The more specific you are, the more effective your ultimate plan will be.

When you have answered the questions to the best of your ability, please sign and date the last page. Ideally, couples should each complete a separate questionnaire. You should also sign and date your spouse's completed questionnaire, as an indication that you are aware of how he or she answered the questions.

It is important to remember that the amount of time you invest in this process will directly affect its outcome.
